| <p>Incredibly Intentional Intervention South Bosque Elementary</p> <p>This grant is for the purchase of a Leveled Literacy Kit from Fountas and Pinnell. With their targeted, high interest intervention lessons, every 4th grader will be set up for success in not just reading, but all academic areas. This kit is cross-implemented between guiding reading and Panther Time in order to provide students with an even deeper level of understanding and more time for the intervention pieces.</p> <p>Amount Funded: \$4,950 Students Impacted: 130 Expenditure per student: \$38.08</p> <p>Named Grant Sponsor: Phillip and Erin Prince Primary Grant Writers: Kristen Taylor, Amber Brown, Lindsey Pick</p> | <p>Taking Math Home South Bosque Elementary</p> <p>Taking Math Home provides grade level math kits to go wherever the kids go! These kits are skill based games and activities that are prepackaged with game boards, pieces, directions, and a purpose. Each pack is used to enrich every student's math competencies in stations, in small groups, with volunteers, and even at home! The kits match the skill level of the student using it.</p> <p>Amount Funded: \$1,925 Students Impacted: 44 Expenditure per student: \$43.75</p> <p>Named Grant Sponsor: Central National Bank Primary Grant Writer: Neta Kaye Penson</p> |
| <p>Can You Hear Me Now? South Bosque Elementary</p> <p>The Heggerty program is used to further support student's understanding and experiences with phonemic awareness, phoneme manipulating, and connecting phonemes to print through the use of phonics flash cards, lesson videos, and teacher-led lessons. It helps us provide a well-rounded curriculum for our students. The lessons and materials provide another layer of instruction and research-based, consistent practice.</p> <p>Amount Funded: \$1,345 Students Impacted: 132 Expenditure per student: \$10.19</p> <p>Named Grant Sponsor: Thomas Brian & Heather White Primary Grant Writer: Lauren Freeman</p> | <p>Word & Detective Work South Bosque Elementary</p> <p>Osmo Word Building Kits are used to interactively play word games that range from spelling to building words to vocabulary. The teacher programs what the students work on as well as see their progress and results. Osmo Detective Kits are a creative way to learn about different parts and cultures of the world. Students learn through clues and a scavenger hunt type of game.</p> <p>Amount Funded: \$2,245 Students Impacted: 44 Expenditure per student: \$51.02</p> <p>Named Grant Sponsor: The Alford Company Primary Grant Writer: Abby Batlle</p> |
| <p>Molecules and Membranes and Models...Oh My! Midway High School</p> <p>3D molecular models are a unique way to have students physically model out cellular processes so that they can understand and see the steps that are involved in things like movement across the cell membrane, protein synthesis, and specific biotechnology tools. Having something tangible that the students can touch and manipulate helps them to grasp these difficult cellular concepts in a much deeper way!</p> <p>Amount Funded: \$1,395 Students Impacted: 45 Expenditure per student: \$31.00</p> <p>Named Grant Sponsor: Huckabee Community Fund for Excellence Primary Grant Writers: Julibeth Moore</p> | <p>LÜ Interactive Playground: <i>Where YÜ Get to be IN the Lesson!</i> Hewitt Elementary</p> <p>Interactive Playground does more than just make PE fun, because really PE is already a crowd favorite. It is a single installed unit that synchronizes lighting, sounds, and real-time behaviors and interactions of students that create a full learning experience for all students involved. The system comes with over thirty pre-made games with access to new games as they are created for the lifetime of the product.</p> <p>Amount Funded: \$28,795 Named Grant Sponsor: MISD Education Foundation Primary Grant Writer: Nicole Grygar</p> |

**Summary of Grant Awards to
All Campuses
Round Forty-One (Spring 2021)**

**I Play, You Play, We All Play TOGETHER
South Bosque Elementary**

This grant is for the purchase of cooperative outdoor play activities that our physically disabled students and general education students can enjoy together and facilitate the development of their SEL skills. These activities provide opportunities to strengthen fine motor skills, gross motor skills, hand-eye coordination, crossing the midline, develop problem solving skills, improve balance and coordination, communication skills and socialization for all students.

Amount Funded: \$14,790
Named Grant Sponsor: MISD Education Foundation
Primary Grant Writers: Kelli Zander and Elisabeth High
